September 17, 2019 – December 30, 2019

- Assisted clients with account inquiries, billing, and technical issues.

- Framework & Knowledge Management
- Stakeholder Collaboration
- Provided responsive and brand-aligned customer support via phone, chat, and email.
- Ensured customer satisfaction through effective issue resolution and professional representation.

PROJECT EXPERIENCE

Simple E-Commerce Website

Role: Developer

[Project Link](#)

Description:

- This project is a MERN (MongoDB, Express.js, React.js, Node.js) stack application, combining the power of backend APIs with a responsive frontend. Built with Chakra UI for clean design and ease of use, this app demonstrates how to create a responsive web application with essential MERN functionalities.
